Subject Index to Volume 37[1]

Acetylcholine
  and gamma-aminobutyric acid, affected by antischizophrenic drugs in brain sites, **10:** 2408
  induced ionic channels in rat skeletal muscle, **12:** 2654
  receptor autoimmune response impairs neuromuscular transmission in myasthenia gravis, **14:** 2828
  transmitter release, adrenergic nerve terminals, and muscarinic receptors, **2:** 191
Acetylcholinesterase inhibition, neuromuscular dysfunction induced by, **14:** 2818
Acoustic communication in crickets: model system for study of feature detection, **10:** 2316
Activated lymphocyte products, chemical characteristics, **13:** 2748
Activation of hamster lymphocytes by concanavalin A, **7:** 2037
Adaptation of lung to oxygen-induced injury, **11:** 2485
Adjuvant effect, allogeneic reactions and response to weak transplantation antigens in hamsters, **7:** 2052
Adrenergic
  neuroeffector interaction in the blood vessel wall, **2:** 181
  nerve endings, angiotensin actions on, **2:** 199
  nerve terminals, acetylcholine, transmitter release and muscarinic receptors, **2:** 191
Affect-related unit activity in forebrain, **9:** 2246
Age
  associated pathological changes in male rats, **14:** 2848
  effect on T-cell differentiation, **5:** 1241
Aging
  and atherosclerosis, **14:** 2832
  and carcinogenesis, interactions, **14:** 2841
  effect on immune and tolerant states, **5:** 1253
Alpha- and beta-adrenergic receptors, identification and regulation, **2:** 123
Alpha globulins, role in nonspecific regulation of immune response, **7:** 2042
Allogeneic
  reactions, "adjuvant effect" and response to weak transplantation antigens in hamsters, **7:** 2052
  responsiveness suppressed in hamsters? **7:** 2050
Alveolar microcirculation, morphologic aspects of, **11:** 2462
Angiotensin
  actions on adrenergic nerve endings, **2:** 199
  thirst and sodium appetite, **13:** 2669
Angiotensin-induced thirst
  central neural pathways, **13:** 2683
  central receptor sites for, **13:** 2676
Animal model
  for experimental autoimmune myasthenia gravis, **14:** 2823
  for myasthenia gravis, neuromuscular transmission impaired by autoimmune response to acetylcholine receptor, **14:** 2828
  for study of immunity to influenza virus infection, **7:** 2072
  for study of slow virus diseases caused by unconventional agents, **7:** 2076
  of paraplegia: trophic influences, **14:** 2811
Antibody and complement modulation of tumor cell growth, **10:** 2385
Antischizophrenic drugs, action on metabolism of gamma-aminobutyric acid and acetylcholine in brain sites, **10:** 2408
Anthropological research, contributions of nutrition science, **1:** 73
Aortic sinus vortex, **14:** 2784
Atherosclerosis and aging, **14:** 2832
Auditory processing in anurans **10:** 2324

Beta-adrenergic thirst, relation to renin–angiotensin system, **13:** 2689
Biomethylation of metals and metalloids, **1:** 16

[1] This index covers volume 37, with the exception of nos. 3 and 6, the abstract issues, which carry permuted subject indexes, and no. 4, the exhibit guide. For each listing the bold face number refers to the issue number; the second number, to the page number.

Books Received

1: 7, **5:** 1190, **7:** 1998, **8:** 2124, **10:** 2314, **12:** 2556, **14:** 2773

Cadmium-induced alteration of drug action, **1:** 28
Calcium homeostasis: regulatory elements and their integration, **12:** 2557
Carcinogenesis
and aging, interactions, **14:** 2841
chemical, in Syrian hamsters, **7:** 2090
in immunologically privileged sites, **7:** 2057
Carcinogenic effects of metals, **1:** 40
Cardiac impairment and shock factors, **13:** 2718
Cardiodepressant substances, circulating shock-induced, **13:** 2724
Cardioinhibitory factors produced in shock, **13:** 2734
Cardiopulmonary baroreceptors, contribution to the control of the kidney, **5:** 1209
Cell-mediated immunity to viruses in hamsters, **7:** 2078
Cell-to-cell channel, **12:** 2645
Central neural pathways for angiotensin-induced thirst, **13:** 2683
Central pacemakers, possible involvement in clinical disorders of movement, **8:** 2171
Central receptor sites for angiotensin-induced thirst, **13:** 2676
Cerebral dominance based on anatomical asymmetry, **9:** 2283
Cerebroside sulfate, possible involvement in opiate receptor binding, **2:** 147
Concanavalin A, activating hamster lymphocytes, **7:** 2037
Consensus, controversies, and curiosities, **13:** 2711
Consciousness and neurophysiology, **9:** 2271

Development
and organization of multimodal representation in cat superior colliculus, **9:** 2240
of immunocompetence in hamsters and the influence of DNA oncogenic viruses, **7:** 2069
DNA oncogenic viruses, influence on development of immunocompetence in hamsters, **7:** 2069
Dopamine agonists and antagonists, clinical aspects of, **10:** 2423
Dopamine receptors
in the central nervous system, **2:** 130
two types in behavioral regulation, **10:** 2415
vascular, compared with other receptors, **10:** 2396
Dopaminergic drugs
binding by neuromelanin of substantia nigra, synthetic melanins and melanin granules, **10:** 2403
steric aspects, **10:** 2392
Dopaminergic pathways, importance to behavior and action of psychotropic drugs, **10:** 2429
Drug action, cadmium-induced alteration of, **1:** 28

Embryonic heart cell aggregates, electrical noise and rhythmic properties of, **8:** 2132

Employment opportunities

1: 27a, **2:** 23a, **5:** 19a, **7:** 36a, **8:** 17a, **9:** 21a, **10:** 13a, **11:** 24a, **12:** 18a, **13:** 28a, **14:**17a
Energy data, the Machiguenga study, **1:** 61
Environmental
agents and pleural reactions, **11:** 2496
contaminants, **12:** 2582
injury of the lung: role of humoral mediators, **11:** 2504
Epithelial cell membranes and junctions, channels in, **12:** 2639
Ergot
alkaloids, dopaminephilic properties, **8:** 2202
derivatives, role in treatment of parkinsonism, **8:** 2207
drugs and central monoaminergic mechanisms, **8:** 2181
Estrogen-treated rats and thirst attenuation, **13:** 2694
Experimental autoimmune myasthenia gravis: rabbit as animal model, **14:** 2823

FASEB CONFERENCE

Receptors
Chairman: *R. F. Furchgott*

Introduction. *R. F. Furchgott* ... 113

SESSION I

Receptors for Neurotransmitters
Chairman: *R. F. Furchgott*

Pharmacological characterization of receptors: its relation to radioligand-binding studies. *R. F. Furchgott* ... 115
Interactions among binding sites on acetylcholine receptors in membrane and in detergent solution. *A. Karlin, V. Damle, R. Valderrama, S. Hamilton, D. Wise and M. McLaughlin* ... 121
Identification and regulation of alpha- and beta-adrenergic receptors. *R. J. Lefkowitz* ... 123
Dopamine receptors in the central nervous system. *P. Seeman, J. L. Tedesco, T. Lee, M. Chau-Wong, P. Muller, J. Bowles, P. M. Whitaker, C. McManus, M. Tittler, P. Weinreich, W. C. Friend and G. M. Brown* ... 130
Serotonin synaptic receptors in the mammalian central nervous system. *J. P. Bennett, Jr., and S. H. Snyder* ... 137

SESSION II

Opiate Receptors and Endogenous Ligands
Chairman: *E. L. Way*

Introduction to the opiate receptor. *E. L. Way* ... 139

In vitro studies on opiate receptors and their ligands. *E. J. Simon and J. M. Hiller* ... 141
Possible involvement of cerebroside sulfate in opiate receptor binding. *H. H. Loh, P. Y. Law, T. Ostwald, T. M. Cho and E. L. Way* ... 147
Histochemical localization of opiate receptors and opioid peptides. *M. J. Kuhar* ... 153
In vivo receptor occupation by opiates and correlation to the pharmacological effect. *V. Höllt and A. Herz* ... 158

SESSION III

Steroid Hormone Receptors
Chairman: *L. Aronow*

The glucocorticoid receptor of mouse fibroblasts. *L. Aronow* ... 162
Mero-receptors: proteolytic fragments of receptors containing the steroid-binding site. *M. R. Sherman, L. A. Pickering, F. M. Rollwagen and L. K. Miller* ... 167
Photoaffinity labeling of estrogen receptors. *J. A. Katzenellenbogen* ... 174

SYMPOSIUM

Alteration in Activity of Vascular Smooth Muscle by Local Modulation of Adrenergic Transmitter Release
Chairman: *J. T. Shepherd*

Introductory remarks. *J. T. Shepherd* ... 179
Adrenergic neuroeffector interaction in the blood vessel wall. *P. M. Vanhoutte* ... 181
Norepinephrine and the presynaptic control of adrenergic transmitter release. *J. A. Bevan* ... 187
Acetylcholine—inhibition of transmitter release from adrenergic nerve terminals mediated by muscarinic receptors. *J. T. Shepherd, R. R. Lorenz, G. M. Tyce and P. M. Vanhoutte* ... 191
Histamine and 5-hydroxytryptamine—inhibition of transmitter release mediated by H_2- and 5-hydroxytryptamine receptors. *M. A. McGrath and J. T. Shepherd* ... 195
Actions of angiotensin on adrenergic nerve endings. *B. G. Zimmerman* ... 199
Prostaglandins—modulation of adrenergic nervous system. *K. U. Malik* ... 203
Metabolic modulation of neurotransmitter release—adenosine, adenine nucleotides, potassium, hyperosmolarity, and hydrogen ion. *R. H. Verhaeghe, R. R. Lorenz, M. A. McGrath, J. T. Shepherd and P. M. Vanhoutte* ... 208

SYMPOSIUMS

Neural Control of Renal Function
Chaired by *G. F. DiBona*

Introductory remarks. *G. F. DiBona* ... 1191
Innervation of the renal cortex. *L. Barajas* ... 1192
Neurogenic control of the renal circulation in hypertension. *G. D. Fink and M. J. Brody* ... 1202
Contribution of cardiopulmonary baroreceptors to the control of the kidney. *M. D. Thames* ... 1209
Neural control of renal tubular sodium reabsorption in the dog. *G. F. DiBona* ... 1214
Neural control of renal tubular sodium reabsorption in the rat: single nephron analysis. *R. E. Colindres and C. W. Gottschalk* ... 1218

Postruminal Fate of Nitrogenous Components
Chaired by *W. Chalupa*

Introductory remarks. *W. Chalupa* ... 1222
Postruminal digestion and absorption of nitrogenous components. *W. G. Bergen* ... 1223
Metabolism of amino acids by the gut, liver, kidneys, and peripheral tissues. *E. N. Bergman and R. N. Heitmann* ... 1228
Uptake and metabolism of nitrogenous components by the lactating mammary gland. *J. H. Clark, H. R. Spires and C. L. Davis* ... 1233

Mechanism of Senescence of Immune Response
Chaired by *T. Makinodan*

Introductory remarks. *T. Makinodan* ... 1239
Effect of age on T cell differentiation. *M. M. B. Kay* ... 1241
Suppressor cells in immunosenescence. *S. K. Singhal, J. C. Roder and A. K. Duwe* ... 1245
Effect of aging on immune and tolerant states. *W. O. Weigle and D. E. Parks* ... 1253
Histocompatibility determinants, immune responsiveness and aging in man. *L. J. Greenberg and E. J. Yunis* ... 1258
Interactions between age and the neuroendocrine and immune system. *W. D. Denckla* ... 1263

SYMPOSIUMS

Synaptogenesis
Chairman: *P. G. Nelson*

Introduction. *P. G. Nelson* 1999
The morphology of interneuronal synaptogenesis: a review. *R. P. Rees* 2000
Formation and modification of synapses in central nervous system cell cultures. *P. G. Nelson, E. A. Neale and R. L. Macdonald* 2010
Interactions between neurons and their targets during in vivo synaptogenesis. *L. Landmesser and G. Pilar* 2016

Hamster Immune Responses: Experimental Models Linking Immunogenetics, Oncogenesis and Viral Immunity
Chairman: *J. W. Streilein*

Introduction. *J. W. Streilein* 2023
Concerning the laboratory career of *Mesocricetus auratus* with special reference to transplantation. *R. E. Billingham* 2024

SESSION I

Normal Immune Response
Cochairmen: *W. R. Duncan and J. Kettman*

Immunological milestones in the ontogeny of hamster, guinea pig, sheep, and man. *J. B. Solomon* 2028
Humoral immunity and serum proteins in the Syrian hamster. *J. E. Coe* 2030
Cellular basis of the humoral immune response in mouse and hamster. *P. Erb, M. Gasser, S. Strasser, S. Kontiainen and M. Feldmann* 2032
Functional studies of membrane-bound immunoglobulin on hamster macrophages and mast cells. *J. L. Portis and J. E. Coe* 2034
Further studies on the activation of hamster lymphocytes by concanavalin A. *S. S. Tevethia and S. B. Singh* 2037
Mitogenic activation of hamster lymphoid cells. *D. A. Hart, J. Stein-Streilein and L. Eidels* 2039
Role of alpha globulins in nonspecific regulation of the immune response: possible mechanisms for external and internal signals. *J. Stein-Streilein and D. A. Hart* 2042
Morphological and functional characteristics of lymphoid cells from LHC hamsters. *A. Ahmed, J. A. Hare and K. W. Sell* 2045
Concluding remarks—Session I. *J. R. Kettman* 2047

SESSION II

Immunogenetics and Transplantation
Cochairmen: *R. E. Billingham and J. Klein*

Definition of the major histocompatibility complex equivalent in Syrian hamsters. *W. R. Duncan and J. W. Streilein* 2048
Can hamsters suppress allogeneic responsiveness? *D. B. Lause and J. W. Streilein* 2050
Allogeneic reactions, "adjuvant effect" and response to weak transplantation antigens in hamsters. *J. W. Streilein and J. Stein-Streilein* 2052
Maternal hamster immune responses to alloantigens of the fetus. *J. R. Head, M. S. Hamilton and A. E. Beer* 2054
Carcinogenesis in immunologically privileged sites. *M. M. Ziegler and C. F. Barker* 2057
Immunobiology of orthotopic tooth transplantation in Syrian hamsters. *P. J. Robinson* 2059
Syrian hamsters: do they or don't they have an MHC? *J. Klein* ... 2061

SESSION III

Infection and Immunity, Especially Virus
Cochairmen: *J. Stein-Streilein and P. Doherty*

Immune responses to nonviral intracellular infections of hamsters. *J. K. Frenkel* 2063
Susceptibility of the Syrian hamster to virus infection. *H. W. Toolan* 2065
Development of immunocompetence in hamsters and the influence of DNA oncogenic viruses. *H. Friedman* 2069
The hamster as a model for the study of immunity to influenza virus infection. *R. Jennings and C. W. Potter* 2072
Viral infections of the hamster central nervous system. *K. P. Johnson* 2074
The Syrian hamster as a model for the study of slow virus diseases caused by unconventional agents. *R. F. Marsh and R. P. Hanson* 2076
Cell-mediated immunity to viruses in hamsters. *R. M. Zinkernagel, A. Althage, F. Jensen, J. W. Streilein and W. R. Duncan* 2078
Concluding remarks—Session III. *P. Doherty* 2081

SESSION IV

Tumor Biology and Immunity
Cochairmen: *D. A. Hart and R. Herberman*

Pathogenesis of malignant neoplasms induced in hamsters by the oncogenic DNA simian virus 40 (SV40). *G. Th. Diamandopoulos* 2082
Spontaneous and radiation-induced oncogenesis in hamsters. *J. J. Trentin* 2084
Horizontally transmitted lymphomas of Syrian hamsters. *J. H. Coggin, Jr., K. V. Thomas and R. Huebner* 2086
Comparison of spontaneous soft tissue hamster tumors with those induced by viral and chemical carcinogens. *L. D. Berman and E. Soto* 2089
Chemical carcinogenesis in Syrian hamsters. *F. Homburger, R. A. Adams, E. Soto and C. G. Van Dongen* 2090
Immune response of the Syrian golden hamster to SV40 induced and transplantable tumors. *M. H. Goldrosen and P. B. Dent* 2092
Serum factors modulating host immunity to SV40 tumor cells. *R. N. Lausch and S. O. Prather* 2095
Concluding remarks—Session IV. *R. R. Herberman* 2097

SUPPLEMENT

Olfaction, pheromones, and the major histocompatibility complex. *R. J. O'Connell* 2099
The Syrian hamster in immunologic perspective. *W. H. Hildemann* 2102
Poster Session Abstracts 2106
Summation of the symposium. *J. W. Streilein* 2108

Number 8. JUNE 1978

LETTERS

Science and politics. *L. D. Partridge.* Further comments on growth promotion by antibiotics. *T. H. Jukes* 2109

Cellular Pacemakers
Chairman: *D. O. Carpenter*

Introduction. *D. O. Carpenter* ... 2125
Ionic mechanisms of pacemaker activity in cardiac Purkinje fibers. *R. W. Tsien and D. O. Carpenter* ... 2127
Electrical noise and rhythmic properties of embryonic heart cell aggregates. *R. L. DeHaan and L. J. DeFelice* ... 2132
Slow repetitive activity from fast conductance changes in neurons. *J. A. Connor* ... 2139
Possible mechanisms underlying bursting pacemaker discharges in invertebrate neurons. *R. M. Gulrajani and F. A. Roberge* ... 2146
Rhythmic potentials in intestinal muscle. *C. L. Prosser* ... 2153
Comparative studies of firefly pacemakers. *F. E. Hanson* ... 2158
Setting the pace and pattern of discharge: do CNS neurons vary their sensitivity to external inputs via their repetitive firing processes? *W. H. Calvin* ... 2165
Possible involvement of central pacemakers in clinical disorders of movement. *M. R. DeLong* ... 2171

Ergots Revisited—Pharmacology of New Ergot Derivatives
Chairman: *L. Lemberger*

The pharmacology of ergots: past and present. *L. Lemberger* ... 2176
Ergot drugs and central monoaminergic mechanisms: a histochemical, biochemical and behavioral analysis. *K. Fuxe, B. B. Fredholm, S.-O. Ögren, L. F. Agnati, T. Hökfelt and J.-Å. Gustafsson* ... 2181
The pathophysiology of hyperprolactinemic states and the role of newer ergot compounds in their treatment. *A. G. Frantz and D. L. Kleinberg* ... 2192
Studies with lergotrile mesylate in acromegaly. *D. L. Kleinberg, M. Schaaf and A. G. Frantz* ... 2198
Dopaminephilic properties of ergot alkaloids. *M. Goldstein, J. Y. Lew, S. Nakamura, A. F. Battista, A. Lieberman and K. Fuxe* ... 2202
Role of ergot derivatives in the treatment of parkinsonism. *D. B. Calne* ... 2207

Dietary fat and cancer trends—a critique. *M. G. Enig, R. J. Munn and M. Keeney* ... 2215

SYMPOSIUMS

Integration of Information at the Single Neuron Level
Chairman: *B. Gordon*

Introduction. *B. Gordon* ... 2221
Representation of moving stimuli by somatosensory neurons. *B. L. Whitsel, D. A. Dreyer and M. Hollins* ... 2223
Nociceptive responses of neurons in the posterior group of nuclei and medial thalamus. *W. K. Dong, H. Ryu and I. H. Wagman* ... 2228
Integration of sensory input in laminae I, II and III of the cat's spinal cord. *D. L. Treviño* ... 2234
Neural representation of cutaneous aftersensations by spinothalamic tract neurons. *D. D. Price, R. L. Hayes, M. Ruda and R. Dubner* ... 2237
Development and organization of multimodal representation in cat superior colliculus. *B. E. Stein* ... 2240
Affect-related unit activity in forebrain. *J. J. Keene* ... 2246
Mechanisms of neural integration in the parietal lobe for visual attention. *T. C. T. Yin and V. B. Mountcastle* ... 2251
Sensory and behavioral properties of neurons in posterior parietal cortex of the awake, trained monkey. *D. L. Robinson and M. E. Goldberg* ... 2258

Physiological Basis of Mental Functions
Chairman: *D. L. Wilson*

Introduction. *D. L. Wilson* ... 2262
Anatomical asymmetry as the basis for cerebral dominance. *N. Geschwind* ... 2263
The biological substrates of abnormal mental states. *S. S. Kety* ... 2267
Consciousness and neurophysiology. *K. H. Pribram* ... 2271
Neurobiology and epistemology. *D. L. Wilson* ... 2275

Nutrition and Muscle Protein Metabolism
Chairman: *H. N. Munro*

Introduction. *H. N. Munro* ... 2281
Effect of nutrition on protein turnover in skeletal muscle. *D. J. Millward and J. C. Waterlow* ... 2283
N^{τ}-Methylhistidine (3-methylhistidine) and muscle protein turnover: an overview. *V. R. Young and H. N. Munro* ... 2291
Regulation and significance of amino acid metabolism in skeletal muscle. *A. L. Goldberg and T. W. Chang* ... 2301
The purine nucleotide cycle in skeletal muscle. *J. M. Lowenstein and M. N. Goodman* ... 2308

Number 10. AUGUST 1978

DNA: the unexpected ally. *E. L. Hess* ... 2313

BOOKS RECEIVED ... 2314

SYMPOSIUMS

Auditory Processing and Animal Sound Communication
Chairman: *R. R. Capranica*

Introduction. *R. R. Capranica* ... 2315
Acoustic communication in crickets: a model system for the study of feature detection. *R. R. Hoy* ... 2316
Auditory processing in anurans. *R. R. Capranica* ... 2324
Behavioral and physiological studies of hearing in birds. *M. B. Sachs, J. M. Sinnott and R. D. Hienz* ... 2329
Unit responses to species-specific sounds in the auditory forebrain center of birds. *H.-J. Leppelsack* ... 2336
Specialization of the auditory system for reception and processing of species-specific sounds. *N. Suga* ... 2342
Response variability in the mammalian auditory cortex: an objection to feature detection? *J. A. Manley and P. Mueller-Preuss* ... 2355

Autologous Immune Reactions as Regulatory Mechanisms
Chairman: *M. E. Weksler*

Introduction. *M. E. Weksler* 2360
Modulation of immune responses by suppressor T cells. *J. A. Kapp, C. W. Pierce, J. Theze and B. Benacerraf* 2361
Horror autotoxicus? *H. Binz and H. Wigzell* 2365
Lymphocyte transformation induced by autologous cells. *M. E. Weksler, M. M. Kuntz, G. Birnbaum and J. B. Innes* 2370
Immunoregulatory aspects of pregnancy. *A. E. Beer and R. E. Billingham* 2374
Major transplantation antigens in T cell-mediated immunity: a comparison of the transplantation reaction with antiviral immunity. *R. M. Zinkernagel* 2379
Antibody and complement modulation of tumor cell growth in vitro and in vivo. *W. T. Shearer and C. W. Parker* 2385

Dopaminergic Mechanisms
Cochairmen: *R. W. Gardier and P. N. Patil*

Introduction. *R. W. Gardier* 2390
Steric aspects of dopaminergic drugs. *D. D. Miller* 2392
Characteristics of the vascular dopamine receptor: comparison with other receptors. *L. I. Goldberg, J. D. Kohli, A. N. Kotake and P. H. Volkman* 2396
Binding of dopaminergic drugs by the neuromelanin of the substantia nigra, synthetic melanins and melanin granules. *M. Salazar, T. D. Sokoloski and P. N. Patil* 2403
Action of antischizophrenic drugs on the metabolism of γ-aminobutyric acid and acetylcholine in globus pallidus, striatum and n. accumbens. *E. Costa, D. L. Cheney, C. C. Mao and F. Moroni* 2408
Two types of dopamine receptors in behavioral regulation. *J. M. van Rossum* 2415
Distinct muscarinic mediation of suspected dopaminergic activity in sympathetic ganglions. *R. W. Gardier, E. J. Tsevdos, D. B. Jackson and A. L. Delaunois* 2422
Importance of dopaminergic pathways and other neural systems to behavior and action of psychotropic drugs. *G. R. Breese, R. A. Mueller, A. Hollister and R. Mailman* 2429
Clinical aspects of dopamine agonists and antagonists. *J. R. Bianchine, G. M. Shaw, J. E. Greenwald and S. M. Dandalides* 2434

Number 11. SEPTEMBER 1978

Pulmonary Circulation
Chairman: *A. B. Otis*

Introduction. *A. B. Otis* 2461
Morphologic aspects of alveolar microcirculation. *J. Gil* 2462
Pharmacological factors influencing permeability of the bronchial microcirculation. *G. G. Pietra and M. Magno* 2466
Structural basis for some permeability properties of the air–blood barrier. *E. E. Schneeberger* 2471

Environmental Pharmacology of the Lung
Cochairmen: *R. L. Singhal and D. M. Aviado*

Introductory remarks. *R. L. Singhal* 2479
Pulmonary metabolism of epoxides. *B. R. Smith, J. H. Maguire, L. M. Ball and J. R. Bend* 2480
Biochemical and anatomical adaptation of the lung to oxygen-induced injury. *D. Massaro and G. D. Massaro* 2485
Early metabolic alterations in pulmonary tissue following administration of toxic agents. *S. Kacew and R. Narbaitz* 2489
Pleural reactions to environmental agents. *H. A. Anderson and I. J. Selikoff* 2496
Inhalation anesthetics. *M. B. Chenoweth* 2501
Environmental injury of the lung: role of humoral mediators. *S. I. Said* 2504
Physiological and biochemical responses to specific group of inhalants: concluding remarks. *D. M. Aviado* 2508

Biochemistry of Spermatogenesis
Chairman: *D. W. Bishop*

Introduction. *D. W. Bishop* 2510
RNA transcription and chromatin structure during meiotic and postmeiotic stages of spermatogenesis. *A. L. Kierszenbaum and L. L. Tres* 2512
t-Alleles and the possibility of post-meiotic gene expression during mammalian spermatogenesis. *R. P. Erickson* 2517
Nuclear protein transactions during spermatogenesis. *M. L. Meistrich, W. A. Brock, S. R. Grimes, R. D. Platz and L. S. Hnilica* 2522
Protamine messenger RNA: its life history during spermatogenesis in rainbow trout. *K. Iatrou and G. H. Dixon* 2526
Initiation of sperm motility in the mammalian epididymis. *D. D. Hoskins, H. Brandt and T. S. Acott* 2534
Chemistry and neurochemistry of sperm motility control. *L. Nelson* 2543

Parathyroid Hormone, Calcitonin and Vitamin D
Chairman: *C. D. Arnaud*

Calcium homeostasis: regulatory elements and their integration. *C. D. Arnaud* 2557
Parathyroid hormone biosynthesis: structure and function of biosynthetic precursors. *J. F. Habener and H. M. Kronenberg* ... 2561
The photobiogenesis and metabolism of vitamin D. *M. F. Holick and M. B. Clark* 2567

Principal Hazards in Food Safety and Their Assessment
Chairmen: *V. O. Wodicka and H. R. Roberts*

Introductory remarks. *H. R. Roberts* 2575
Foodborne hazards of microbial origin. *E. M. Foster* 2577
Environmental contaminants. *I. C. Munro and S. M. Charbonneau* 2582
Food hazards of natural origin. *J. V. Rodricks* 2587
Assessment of food safety. *J. Doull* 2594

Vitamin K
Chairman: *J. W. Suttie*

Introduction. *J. W. Suttie* 2598
Metabolism of vitamin K and prothrombin synthesis: anticoagulants and the vitamin K-epoxide cycle. *R. G. Bell* 2599
Relationship between vitamin K-dependent carboxylation and vitamin K epoxidation. *J. W. Suttie, A. E. Larson, L. M. Canfield and T. L. Carlisle* 2605
Nature of the vitamin K-dependent CO_2 fixation in microsomal membranes. *R. E. Olson, R. M. Houser, M. T. Searcey, E. J. Gardner, J. Scheinbuks, G. N. Subba Rao, J. P. Jones and A. L. Hall* 2610
Properties and biosynthesis of a vitamin K-dependent calcium binding protein in bone. *J. B. Lian, P. V. Hauschka and P. M. Gallop* 2615
Interactions of vitamin K-dependent proteins with calcium ions and phospholipid membranes. *G. L. Nelsestuen* 2621

Membrane Channels
Chairman: *W. R. Loewenstein*

Introduction. *W. R. Loewenstein* 2626
The kinetics of ion movements in the gramicidin channel. *B. W. Urban, S. B. Hladky and D. A. Haydon* 2628
Ion channels formed by chemical analogs of gramicidin A. *E. Bamberg, H.-J. Apell, H. Alpes, E. Gross, J. L. Morell, J. F. Harbaugh, K. Janko and P. Läuger* 2633
Channels in epithelial cell membranes and junctions. *J. M. Diamond* 2639
The cell-to-cell channel. *W. R. Loewenstein, Y. Kanno and S. J. Socolar* 2645
Synaptic actions of acetylcholine: problems for future research. *C. F. Stevens* 2651
Acetylcholine-induced ionic channels in rat skeletal muscle. *B. Sakmann* 2654

Number 13. NOVEMBER 1978

Angiotensin-Induced Thirst: Peripheral and Central Mechanisms
Chairman: *M. J. Fregly*

Introduction. *M. J. Fregly* 2667
Angiotensin, thirst, and sodium appetite: retrospect and prospect. *J. T. Fitzsimons* 2669
Central receptor sites for angiotensin-induced drinking: a critical review. *J. B. Simpson, M. L. Mangiapane and H.-D. Dellmann* 2676
Central neural pathways for angiotensin-induced thirst. *G. J. Mogenson and J. Kucharczyk* 2683
Beta-adrenergic thirst and its relation to the renin–angiotensin system. *D. J. Ramsay* 2689
Attenuation of thirst in estrogen-treated rats. *M. J. Fregly* 2694
Pharmacology of angiotensin-induced drinking behavior. *W. B. Severs, D. G. Changaris, L. C. Keil, J. Y. Summy-Long, P. A. Klase and J. M. Kapsha* 2699
The renin–angiotensin system and thirst: some unanswered questions. *E. M. Stricker* 2704
Consensus, controversies, and curiosities. *A. N. Epstein* 2711

Toxic Factors in Shock
Chairmen: *A. M. Lefer and T. M. Glenn*

Introduction. *A. M. Lefer and T. M. Glenn* 2717
Cardiac impairment and shock factors. *S. Rogel and H. Hilewitz* ... 2718
Characterization of circulating shock-induced cardiodepressant substances. *R. D. Goldfarb, P. Weber and J. E. Estes* 2724
Intestinal ischemia and shock factors. *U. Haglund and O. Lundgren* 2729
Properties of cardioinhibitory factors produced in shock. *A. M. Lefer* 2734

Molecular Mechanisms of Mononuclear Cell Function
Chairman: *B. R. Bloom*

Introduction. *B. R. Bloom* 2741
Human leukocyte inhibitory factor (LIF): a lymphocyte mediator with esteratic properties. *R. Rocklin* 2743
Chemical characterization of products of activated lymphocytes. *C. Sorg and W. Klinkert* 2748
Regulation of enzyme secretion by mononuclear phagocytes: studies with macrophage plasminogen activator and lysozyme. *S. Gordon* 2754
Oxygen metabolism and the microbicidal activity of macrophages. *R. B. Johnston, Jr.* 2759
Genetic approaches to the mechanism of macrophage functions. *B. R. Bloom, B. Diamond, R. Muschel, N. Rosen, J. Schneck, G. Damiani, O. Rosen and M. Scharff* 2765
